have transportation and should have been here yesterday.

Regular Practice To-Day.
With seventeen men on hand and with the baths now complete at the clubhouse, hot water connections and all, Steve will take the army out for its first real gunning this afternoon. The shoot will begin at exactly 2 o'clock and will continue until 5. Even though a game is scheduled for Thursday afternoon with the Boston Nationals, Crit is going to enforce the rule that the men must be here to-day.

Is Stand Taken.

[Special to The Times-Dispatch.]

New York, March 24.—A cable message, was flashed to the other side of the ocean to-day by the New York Yacht Club, informing the Royal Ulster Yacht Club that the former would decline to reconsider Sir Thomas Lipton's challenge for a race for the American cup.

The cablegram, which was sent by the club's committee, indirectly was ratified by the club at the special meeting Thursday night, called for the purpose of considering the matter.

When the first challenge was declining Sir Thomas cablegram he could not see how his challenge with the yacht was rejected, and also his interpretation of the deed of gift. The New York Yacht Club Committee in their answer, briefly states that Sir Thomas, as he has repeatedly been told, cannot determine the dimensions of the vessel nothing to support it in the deed of gift, and which is contradicted by every reference to its terms.

As has been shown, the deed of gift, uses a minimum and maximum length for the competing vessels and nowhere, from beginning to end, does it suggest that they must be of similar size."

In the connection the New York Yacht Club has advised the Ulster Yacht Club by any provision of the challenge, or by any condition inserted therein, directly or indirectly, to dictate to the defending club the size, power and type of the defending yacht.

It asserts the Ulster Yacht Club's defending club to select as its representative a vessel of such size, power and type as it sees fit within the limits fixed by the deed.

It is not necessary for the Ulster to put up a good exhibition in the first game, but he is not so anxious to show well that he will take chances with the men there are other games besides this first one, and the Ulster is the regular season, towards which all are looking. It's mighty nice to win in regular games, but it is far nicer to win a pennant, and that's what really counts.

Harvey Bussey was somewhat peeved because he was left out in the first last of the season, which was held here came in yesterday morning at 5:05 o'clock, and felt that anybody so ambitious and so anxious to be on hand for the first game, coming into town at that unearthly hour does not deserve special mention. We subscribe to Harvey's opinion and are now trying to make amends. We really looks tired and worn out than he does, but here at the close of last season. Then he was suffering from malarial fever and was worn down to a thread. Now

challenging and defending vessels, Sir Thomas in his latest cable says: "It must be presumed that the framers of the deed of gift intended that some reasonable meaning should be attached to their words, and they could never have contemplated such an absurdity as a challenger of sixty-five years of age to challenge a member of the club said to-day: "If Sir Thomas had simply challenged under the deed of gift and named a 75-footer, without the provision that he be met by a 75-footer, the club would have accepted the challenge and would have met him with a 75-footer.

All Look Husky.

They are mostly big fellows, youngish and ready to fight all the way. There is plenty of pep in the outfit. And it's a good thing to count in the final estimate—pep plus just average ability. that night, and they had quite a chat. "Well," which Con. warmed up to the dud and finally asked if there were any more at home like him. Frank turned quickly and sprung a piteous whine telling "Con" the league. "Con" told him he was on and offered a bonus if the flinger made good. That's how "Duck" Walsh, coal miner, broke into baseball. It wasn't "Big Ed" then, but plain "Duck," a big lunk of a fellow, almost a giant; ungainly, almost unaware of his own strength. But he made good, and he came very near breaking up the league. So Frank Berger, who has had his ups and downs since he was dubbed Fisher, started Ed. Walsh on his career in the little town of Meriden, Conn., and he won't mind telling you about it, either.
